

Unique Polymer Industries

10 Years of Excellence in Rubber Products

- **Innovative Rubber Solutions:** Delivering superior rubber components to meet industrial needs with precision and durability.
- **Established Presence:** Located in Rudrapur, Uttarakhand with ISO 9001:2015 certification and a decade of expertise.
- **Quality & Customization:** Renowned for quality, customization capabilities, and fast turnaround times across product lines.

UNIQUE POLYMER
INDUSTRIES

About Us

Company Overview – Unique Polymer Industries

- **Headquartered in Rudrapur:** Strategically located in Uttarakhand's industrial hub to efficiently serve domestic and export markets.
- **Founded in 2016:** Over a decade of experience delivering reliable rubber components for diverse applications.
- **Certified & Trusted:** ISO 9001:2015 certified with a customer-focused approach ensuring consistent product excellence.

Product Range Overview

Diverse, High-Performance Rubber Components

Rubber Glasket

Rubber Washer

Rubber Wireharnes Parts

Rubber Transformer Parts

Rubber Filter Parts

Rubber Silicone Parts

Rubber Metal Bonding Parts

Rubber Grommet

Key Strengths & Certifications

Delivering Consistent Quality with Global Standards

ISO 9001:2015 Certified

Adherence to international quality management standards ensuring process integrity and customer satisfaction.

Advanced QA Systems

In-house testing and inspection protocols for every production batch to guarantee consistency.

Experienced Engineering Team

Skilled professionals with domain expertise driving innovation and manufacturing precision.

Core Products Deep Dive

Precision Components for Performance-Critical Applications

Rubber Bellows

Flexible connectors used for vibration isolation and protection in moving machinery and HVAC systems.

Industrial Gaskets

Sealing solutions engineered for chemical resistance, high-pressure and temperature applications.

Custom Moulded Parts

Tailor-made components produced as per customer blueprints and performance demands.

Manufacturing Capabilities

Modern Infrastructure for Precision Engineering

Molding & Mixing Units

Equipped with state-of-the-art rubber molding machines and precision mixing systems.

In-House Tool Room

Custom dies and moulds designed for accuracy, rapid prototyping, and minimized cycle times.

Quality Control Lab

Dedicated testing labs with hardness, tensile, aging, and dimensional checks ensuring consistency.

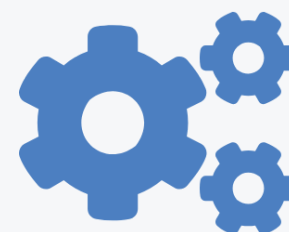

Industries & Applications

Versatile Use Across Sectors

Automotive Sector

Rubber bushings, gaskets, and vibration dampers used in suspension, braking, and sealing systems.

Industrial Machinery

Protective rubber parts deployed in conveyors, pumps, and manufacturing equipment.

Infrastructure & Utilities

Rubber linings and bellows applied in HVAC systems, pipelines, and water treatment facilities.

Competitive Advantages

Why Unique Polymer is the Preferred Partner

Speed & Flexibility

Fast lead times with low MOQ capability, ideal for custom and urgent projects.

Quality & Durability

Rigorously tested rubber parts that exceed performance expectations under demanding conditions.

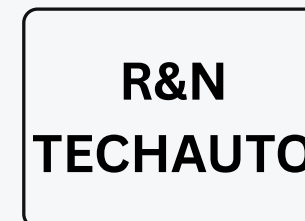

Customer-Centric Service

Responsive engineering support and agile production tailored to client needs.

Customer Success Stories

Proven Impact Across Projects

- **Repeat Clients:** Strong retention rate due to quality, consistency, and service responsiveness.
- **Tailored Solutions:** Custom rubber components developed in collaboration with client engineering teams.
- **Multi-Sector Reach:** Proven success in automotive, utilities, OEMs, and manufacturing sectors.
